The technical Face-Off

The Final Sprint to Glory

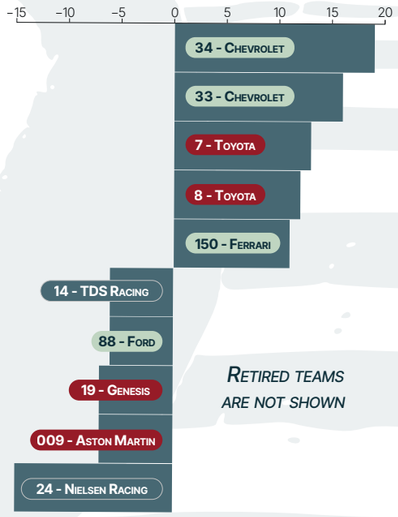

Following #50 - Ferrari DNF at 10:20, after 18 hours of racing, the Safety Car was deployed.

With 4 hours 30 minutes to go after the Safety Car restart and 7 cars still on the lead lap, it was all to play for to clinch a historical victory.

Both Toyota, BMW #20 and Cadillac #12 put on a show, switching position all over the place fighting for the win.

20 seconds between all 3 podium finishers makes it the closest finish in Le Mans' recent history.
